

# NOUVEAU CONTOUR® ACADEMY

---

111 N. Orange Ave. Suite 775, Orlando FL 32801

Micropigmentation is one of the fastest growing specialties in the medical field. Micropigmentation is the revolutionary method of depositing hypoallergenic pigments into the dermal layer of the skin. The objective of these procedures is to raise self-esteem as well improve self-confidence. Whether your clients are suffering from visible scars, breast reconstruction, de-pigmentation or hair loss; you can help them feel complete again after applying Micropigmentation. Your work will be the finishing touch of the surgeon.

## **Dermapigmentation**

In this specialty program you will get in-depth insight in dermapigmentation and learn state-of-the-art techniques performing these life-changing procedures. This curriculum offers classes in:

- 1 day Cosmetic Areola pigmentation
- 1 day Areola Dermapigmentation for women after breastcancer
- 1 day Skin Disorder Dermapigmentation

Certificate: after succeeding each Dermapigmentation Class, you will receive a certificate that shows your skills in this field of experience.

### • **Full Professional in Dermapigmentation**

After successful completion of the three Dermapigmentation Classes, you will have the status of Nouveau Contour Full Professional in Dermapigmentation.

## Areola and Nipple Restoration

After a woman has had breast reconstruction most will choose to have the areola and nipple colored for a more natural appearance. This can be achieved with Medical Micropigmentation. If the woman chooses not to have the nipple reconstructed she can choose a Micropigmentation procedure that will leave her with a 3D illusion effect of a natural looking areola and nipple.

Before

After

## Skin Disorder Camouflage

Skin Disorders that are light in color and flat can be camouflaged long term by doing Medical Micropigmentation. Two to three treatments are required. Light skin tone colors are implanted into the scar tissue to minimize the appearance of the scar.

Before

After

## **Medical Micropigmentation Training Overview**

This 3 day class conducted in our facility is for individuals currently working in the medical field that wish to add Medical Micropigmentation to their practice or office procedures.

In this course you will learn Micropigmentation of the following:  
**Areola Pigmentation-** Nipple/Areola Coloring as well as 3D effects  
**Skin Disorders-** Skin Disorder Camouflage
